NINETEEN POKERPRO TABLES GO LIVE AT FOUR WINDS CASINO RESORT IN NEW BUFFALO, MI

*World Poker Tour Poker Room is 100% PokerPro,
world's largest installation of electronic poker tables.*

Matthews, NC – August 2, 2007 - Four Winds Casino Resort, in New Buffalo, Michigan, opened the world's largest automated poker room today, running exclusively on PokerTek (NASDAQ: PTEK) poker tables.

The Four Winds Poker Room features fifteen PokerPro® 10-seat tables and four PokerPro Heads-Up tables.

The Four Winds property, which opened on August 2nd, is owned by the Pokagon Band of Potawatomi Indians and managed by Lakes Entertainment. Four Winds has over 3,000 slot machines, 100 table games, 6 restaurants, 5 bars and 165 hotel rooms in addition to the 19-table poker room.

“Four Winds is committed to delivering the best gaming and entertainment experience possible and PokerPro is part of that commitment,” said Matt Harkness, Four Winds Casino Resort General Manager. “We are proud to open this state-of-the-art, all-PokerPro poker room.”

“The Pokagon Band has been an ideal partner for PokerTek's largest installation to date,” said Lou White, PokerTek's Chief Executive Officer. “Their commitment to electronic poker is phenomenal, as evidenced by the size and quality of their new poker room. PokerTek is pleased to be working with an operator whose dedication to making this room a success is only rivaled by their desire to exceed player's expectations by offering such a broad range of game offerings, tournament schedules and major tournament satellite events.”

The room will offer Limit and No Limit Texas Hold'em cash games, Limit and Pot Limit Omaha Hi and Hi/Lo cash games, and Single and Multi-Table tournaments with a variety of buy-ins. Players can also play to win seats into major events and compete in heads-up tournaments on one of the four PokerPro Heads-Up tables.

“We're going to offer the best action in the region,” said Harkness. “Our tournament schedule is second to none, our games are all reasonably priced and playing on PokerPro gives players more action with fewer hassles and distractions.”

PokerPro® is an electronic poker table that allows players to compete against each other in live poker. Players use their individual touch-screen to view their cards, call, raise or fold, while viewing the pot, community cards, and players chip stacks on the large center display. Players will notice that the games are fast with a 50% increase in the hands dealt every hour when compared to a manual poker table, as well as total accuracy and social interaction among players.

About PokerTek, Inc.

PokerTek™, Inc. (NASDAQ: PTEK), headquartered in Matthews, NC, develops and markets PokerPro® and PokerPro® Heads-Up™ electronic poker tables and related software applications designed to increase casino revenue, reduce expenses and attract new players into poker rooms. PokerTek entered the amusement space by introducing Heads-Up Challenge™, a heads-up poker table for bars and restaurants that targets adults who play for amusement only. PokerPro tables are located in the United States, the United Kingdom, Germany, Australia, South Africa and on several major cruise lines. For more information, please visit the company's website at www.pokertek.com <<http://www.pokertek.com>> or contact Tracy Egan at 704.849.0860 x106.

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and are made in accordance with the Private Securities Litigation Reform Act of 1995. The forward-looking statements herein include, but are not limited to, the expected adoption of the PokerPro® systems by casinos and other customers, and the expected acceptance of the PokerPro® systems by players. Our actual results may differ materially from those implied in these forward-looking statements as a result of many factors, including, but not limited to, overall industry environment, customer acceptance of our products, delay in the introduction of new products, further approvals of regulatory authorities, adverse court rulings, production and/or quality control problems, the denial, suspension or revocation of permits or licenses by regulatory or governmental authorities, termination or non-renewal of customer contracts, competitive pressures and general economic conditions, and our financial condition. These and other risks and uncertainties are described in more detail in our most recent annual report on Form 10-K filed with the Securities and Exchange Commission. Forward-looking statements speak only as of the date they are made. We undertake no obligation to update or revise such statements to reflect new circumstances or unanticipated events as they occur, except as required by applicable laws, and you are urged to review and consider disclosures that we make in the reports that we file with the Securities and Exchange Commission that discuss other factors germane to our business.
