

## **PokerTek Announces Date for Second Quarter 2006 Earnings Release and Conference Call**

CHARLOTTE, NC—July 28, 2006—PokerTek, Inc. (NASDAQ: PTEK) will host a conference call on Thursday, August 10, 2006 at 5:00 p.m. Eastern Daylight Time to discuss its financial results for the three and six month periods ended June 30, 2006.

Interested parties may listen to and participate in the conference call by dialing (800) 659-2056 (U.S./Canada) or (617) 614-2714 (Other) and entering passcode 29904064. The conference call will be webcast simultaneously through a link on our website, [www.pokertek.com](http://www.pokertek.com), under the heading “Investor Relations,” as well as [www.earnings.com](http://www.earnings.com) and [www.streetevents.com](http://www.streetevents.com). A replay of the conference call will be available approximately two hours after the conclusion of the call for approximately 24 hours by dialing (888) 286-8010 (U.S./Canada) or (617) 801-6888 (Other) and entering passcode 79279273. A replay of the conference call will also be made available for one year on our website, [www.pokertek.com](http://www.pokertek.com), under the heading “Investor Relations.”

### **About PokerTek, Inc.**

PokerTek, Inc. was formed to develop and market the PokerPro™ system, an electronic poker table that provides a fully-automated poker room environment, to tribal casinos, commercial casinos, and card clubs. The PokerPro™ system is designed to increase casino revenue and security while helping to reduce the labor costs associated with poker rooms. PokerTek’s testing of the PokerPro™ system has shown that by replacing a live dealer, more hands of poker can be played in a given amount of time, thereby increasing revenue opportunities for the casino or poker room. In addition, the replacement of a live dealer allows casinos and card clubs to avoid the labor costs of using a live dealer to operate a poker table. The PokerPro™ system is also designed to improve players’ gaming experience by eliminating dealer and player mistakes, eliminating the need for dealer tipping and by providing players with automated game information not available at poker tables operated by live dealers, such as chip stack calculation, pot calculation and the ability to view previous hands played.

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements sometimes include the words “may,” “will,” “estimate,” “intend,” “continue,” “expect,” “anticipate” and other similar words. Statements expressing expectations regarding our future (including pending gaming and patent approvals) and projections relating to products, sales, revenues and earnings are typical of such statements.

All forward-looking statements are subject to the risks and uncertainties inherent in predicting the future. Our actual results may differ materially from those projected, stated or implied in these forward-looking statements as a result of many factors, including, but not limited to, overall industry environment, customer acceptance of our products, delay in the introduction of new products, the further approvals of regulatory authorities, adverse court rulings, production and/or quality control problems, the denial, suspension or revocation of permits or licenses by governmental authorities, competitive pressures and general economic conditions, and our financial condition. These and other risks and uncertainties are described in more detail in our most recent annual report on Form 10-K filed with the Securities and Exchange Commission.

Forward-looking statements speak only as of the date they are made. We undertake no obligation to update or revise such statements to reflect new circumstances or unanticipated events as they occur, and you are urged to review and consider disclosures that we make in the reports that we file with the Securities and Exchange Commission that discuss other factors germane to our business.
